Rules For Use of SFI Off-Product Marks

Preface

SFI Inc. is an independent, non-profit, charitable organization dedicated to promoting sustainable forest management in North America and supporting responsible procurement globally. The *SFI* Board is a three chamber Board of Directors representing environmental, social and economic interests equally, and the program addresses local needs through its grassroots network of 37 *SFI Implementation* Committees across North America. *SFI Inc.* directs all elements of the *SFI program* including the *SFI* forest standard, chain-of-custody certification, *fiber sourcing* requirements, labeling and marketing.

Consumers in growing numbers want assurance that their buying decisions represent a sound environmental choice. They are asking for proof that wood, paper and packaging products are made with raw materials sourced from *certified forest content* and *certified sourcing*. *Section 4 - Rules For Use Of SFI On-Product Labels* as well as the *SFI Chain-of-Custody Standard* and Associated Labels (Sections 3 and 4) deliver a reliable and credible mechanism so businesses can provide this assurance to their customers.

The *SFI program* meets guidelines on environmental claims in product advertising and communication issued by the U.S. Federal Trade Commission and guidelines on environmental labeling and advertising issued by the Competition Bureau of Canada.

Studies have shown that consumers appreciate the value of forest certification in helping them identify wood and paper products from legal, responsible sources. A 2008 survey by GfK Roper Public Affairs & Media and the Yale School of Forestry and Environmental Studies found that North American consumers believe it is important or essential to have eco-labels that describe the environmental impacts caused by the manufacture, use and disposal of products. Of 10 eco-labels tested in the United States, the *SFI* label had the highest familiarity rating of any forest certification program.

The fact that the *SFI program* can deliver a steady supply of fiber from well-managed forests is especially important at a time when there is increasing demand for green building and responsible paper purchasing, and only 10 percent of the world's forests are certified. The American Consumer Council says it supports the good work of the *SFI program*, and applauds the positive and progressive actions it is taking. A poll by TerraChoice Environmental Marketing found that procurement specialists included the *SFI* label on a list of the top 10 eco-labels they relied on frequently to make buying decisions.

Rules for Use of *SFI* Off-Product Marks

In addition to its on-product labels, the *SFI* program has off-product marks to show participation in the program and to promote the program generally. *SFI Inc.* owns all right, title and interest in these marks, and exercises legitimate control over their use.

There are two licensed work marks and one tagline mark, as well as two logo marks.

1. *SFI* Licensed Word Marks:

- SUSTAINABLE FORESTRY INITIATIVE®
- SFI®

SFI Licensed Tagline Mark:

- GOOD FOR YOU, GOOD FOR OUR FORESTS®

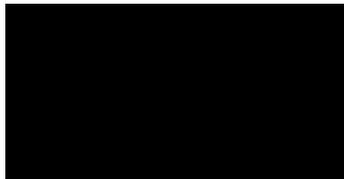

1. If a word mark is used in an advertisement or on the front page of a book, manual, report or other document, it should be distinguished by making it larger, bolder, in all caps or italics.
2. The first time a word mark is used in the text of a document, the words must be either in all caps, italics, bold or quotes. All caps, italics, and bold are preferred. Any subsequent uses can either continue with all caps, italics, bold, or quotes, or can be in initial caps (e.g. Sustainable Forestry Initiative).

5. The tagline mark (Good For You, Good For Our Forests®) can be used in association with the word marks.
6. In addition to the uses described below in General Rules for all *Program Participants*, the word marks may be used as follows, provided the advertisement or brochure refers to the *SFI* website (www.sfiprogram.org) or the *Program Participant's* website with a hotlink to the *SFI* website:
