

International accreditation bodies

Depending on the scope of the certification audit, certification bodies performing third-party audits to SFI forest, chain-of-custody or fiber sourcing requirements must have completed an accreditation program through one or more of the following independent, international accreditation bodies:

[American National Standards Institute](#)
[ANSI-ASQ National Accreditation Board](#)
[Standards Council of Canada](#)

ANSI, ANAB and SCC are national members of the [International Accreditation Forum](#)
