KEY DETAILS & CONTACTS
The Standard revision process ensures credibility and transparency allowing everyone to participate. Broad involvement from the conservation community, Indigenous communities, forest products industry, brand owners, private forest landowners and public forest managers, government agencies, trade associations, landowner associations, academia and others is integral to the development of the next SFI Standards. The online public comment period is part of this process.

SFI PUBLIC COMMENT PERIODS
There are two public comment periods. The first comment period on the existing SFI 2015-2019 Standards and Rules ran for 30 days concluding on November 22, 2019. The second comment period on the first draft of the 2022 standards runs for 60 days through May 1, concluding June 30, 2020.

All comments are also reviewed by the SFI External Review Panel who assess that all comments have been addressed fairly considered.

The SFI Standard Revision Task Groups will consider all feedback from the public comment periods and the SFI Standard Revision Workshops.

The SFI Resources Committee is required to consider all feedback from the public comment periods and workshops.

SUBMIT YOUR COMMENTS ON THE REVISED STANDARDS AND RULES
• OPEN 60 DAYS, May 1 - June 30, 2020
• All submitted comments will be considered by SFI Task Groups
• The online comment platform is publicly available for anyone to provide comments.
• View Task Group responses to submitted public comments after the comment period

SFI STANDARDS REVISION TASK GROUPS

ABOUT THE TASK GROUPS
SFI Standard Revision Task Groups review all comments and develop the draft standards. The Task Groups are established for the duration of the standard revision until completion in 2021. There are three Task Groups: Forest Management (Section 2), Fiber Sourcing (Section 3) and Chain of Custody & Labels (Sections 4 & 5). Other Task Groups may be formed to address new topics.

The SFI standard revision process is based on balanced representation from many different interest groups. This inclusion is also reflected in Task Group composition reflecting a diversity of interest groups as well as a balanced representation of expertise, gender and geographical location. Examples of interest groups part of the standard revision process include:

- Forest Owner/Manager
- Manufacturer/processor/trader of forest-based products
- Conservation organization
- Customers & consumers
- Scientific and technological community
- Logging professionals
- Workers & trade unions
- Indigenous Peoples
- Government
- Education/academic group
- Social-purpose organization

TASK GROUP RESPONSIBILITIES
Task Group members are expected to participate in the following tasks, under the direction of the respective Task Group Chairs:

- Review submitted comments from public comment periods and Standard Revision that correspond to each task group’s focus area.
- Prepare revised Standards text (first and subsequent drafts) for review by the SFI Resources Committee, incorporating their feedback as required.
